

Credit Card Operating Manual

Billing Cycle and Grace Period

Each account has a fixed statement date. Purchases carry an interest-free grace period of up to 50 days when the previous balance was paid in full. The grace period is lost if any amount is carried forward.

Minimum Amount Due

The minimum amount due is the higher of 5% of the total outstanding or INR 200, plus any overlimit amount and any unpaid past dues. Paying only the minimum keeps the account current but finance charges apply on the full balance from the transaction date.

Finance Charges and Overlimit

Finance charges accrue at up to 3.75% per month. An overlimit facility of up to 10% of the credit limit may be granted; an overlimit fee of INR 600 applies once per cycle.

Cash Advances

Cash withdrawals attract a fee of 2.5% of the amount, minimum INR 500, and finance charges from the withdrawal date with no grace period.

Auto-Debit and Standing Instructions

Customers may set auto-debit for the total or the minimum amount due. A failed auto-debit due to insufficient funds is retried once after three days before a late fee is charged.
