

Regulatory Circular - Digital Lending Disclosures

Applicability

All loans sourced or serviced through digital channels, including partner apps and web journeys, effective 1 July 2026.

Key Fact Statement

Before disbursal the borrower must be shown a Key Fact Statement containing the annual percentage rate, the total amount repayable, the schedule of all fees, the cooling-off period, and the recovery agent details. The APR must include all charges except statutory levies and genuine third-party pass-through costs.

Cooling-off Period

Borrowers may exit a digital loan within 3 days by repaying the principal and the proportionate APR with no penalty.

Disbursal and Repayment Flow

Loan disbursal and repayment must flow only between the borrower's bank account and the regulated entity, with no pass-through pool account of a lending service provider.

Grievance

The regulated entity's nodal grievance officer must be named in the app and on the website, with a resolution commitment of 30 days before the borrower may escalate to the Ombudsman.
